Are you ready for some back-to-basics cooking with a lot of nutrient dense recipes? I know I am! I was super excited to receive *Good + Simple* by Jasmine and Melissa Hemsley. Once I got the book, I immediately choose some recipes to try out. I loved the Spicy Miso Salmon with Broccoli Rice. I left out the chili powder so it wasn't spicy for my family. The Avocado Boats 3 Ways was also a hit. I have one child who loves avocado and another who hates it. The child who usually hates avocado loved the variation with the drizzled honey on top of the avocado. I love how this cookbook has a number of recipes that shows you how to prepare it 2-3 ways. We also liked the Cucumber and Smoked Salmon Canapés. I love all the simple recipes that are quick to prepare but are also healthy for my children. It was such a nice surprise and a huge plus that the cookbook includes smoothies and healthy juice recipes. Truth be told, I was looking for a juice recipe book because I bought a juicer recently and really wanted to get in the habit of juicing to help get the nutrients in my family's bodies. I loved reading about the Hemsley sisters' philosophy on food and all the little tidbits included in the cookbook. Most of what they mentioned, I already knew and follow, but it's nice to be reminded why I had originally followed certain routines (soaking nuts, make bone broth, cook with leaf lard). I loved how they mention that "fat is your friend". I've always felt that there is nothing wrong with eating lots of healthy whole fat (we cook with leaf lard, use a lot of pastured and cultured butter, drink whole raw milk); it's all the other processed junk food that is bad for us. But companies blame fat and have convinced so many of us to consume a low-fat diet.
