## Customer Reviews

I taught my field spaniel to shake, speak, rollover, beg, bow, crawl on her belly, climb ladders, open and close doors, etc. Also, using the techniques in the book, I made-up other tricks. Now she can slp-you-five and jump and twist in midair.

This is a very clearly written book that shows step by step how to make your dog impress people with how "smart" it is. The best thing about training your dog to do some of these tricks is that the basics sit, stand and stay also get transmitted. If you have a dog with behavior problems, once you start them out with this book everything else will follow. The book itself shows this with it's cross-reference at the end of each trick letting you know which tricks will be easy to teach in the future based on the foundation of just one trick! This book would be great for puppies as well.

I'm a veterinarian, very involved in behavior training, because that's what keeps my canine patients alive. I've found that if I can get clients involved in teaching a dog who has found out that learning is fun, that dog stands a much better chance of staying alive of becoming an indispensable member of their family. I've checked out numerous trick training books, and this is hands down the best. It's

focused, breaks the tricks down into easy, understandable steps, and is written by someone who knows and loves dogs. Bravo!

This wonderful book is lavishly illustrated, and takes a step-by-step approach that results in an over-all well-trained dog. Easy to follow and a fun read.

My Scottish Terrier, Sgt. Pepper, is currently working on the balance the milk-bone on your nose, and rollover trick. At this point we're having so much fun gazing into one another's eyes over the milk bone, that we don't much care whether he learns it or not. This is great fun!

I did not read this book as it didn't cover what I needed to know, I misunderstood the title - "tricks". I needed one to teach all old dogs not to be paper trained.

Good enough book, but came dirty? Guess it was used and they didn't clean it up or wipe off the cover before sending it....thought I was getting a book geared towards how to teach an "old" dog tricks, but it seems to be just a basic trick book geared for any dog. Should be useful though.
