# The Ultimate Wedding & Ceremony Workbook For The 'Planning-Impaired'

## Synopsis

This is the brand new revised edition. This amazing book contains 81 pages of non-denominational ceremony samples and explanations for use. Each part is numbered and in the order that the ceremony generally runs. I have personally used these ceremonies in hundreds of weddings and have sold thousands of them across the country. The ceremony section enables couples to create their own unique ceremony that reflects exactly how they feel about each other, and the planning section makes the whole overwhelming event completely manageable. There are Questions to Ask pages, Things to Acquire pages and Day-of Details through the whole book. The book is amusing and informative. This is a workbook, so there are places to fill in your answers and pages that tear out. It's a must-have book for any bride and groom. Brides who use this book swear by it. Brides who don't -- just swear.

## Book Information

Paperback: 160 pages

Publisher: Apex Publications; 3rd edition (June 2003)

ISBN-10: 0966499239

ISBN-13: 978-0966499230

Product Dimensions: 11.9 x 9.5 x 1.2 inches

Shipping Weight: 1.9 pounds

Average Customer Review: 4.6 out of 5 stars [See all reviews](#) (23 customer reviews)

Best Sellers Rank: #1,215,927 in Books (See Top 100 in Books) #80 in [Books > Crafts, Hobbies & Home > Weddings > Planners](#)

## Customer Reviews

I really like how The ULTIMATE Wedding/Ceremony Workbook For The Planning-Impaired gives the engaged couple freedom to be as creative and as daring as they can live with. I also found myself getting kind of excited as I anticipated how the bride and groom would watch their wedding plans come together in a very real and concrete way. Of course, I'm a very visual person so this really appeals to me. I loved that you included sample prayers and vows - it gives them a chance to realize that this is an important ceremony, as well as a sacred time in their lives, and presents each of them with the opportunity to seriously think about how to make it meaningful for themselves on a personal level. The book is also casual and relaxed and the writing nice and big so it really has that workbook feel instead of the 'how to do it the right way' type of message. This is a great book - I know my son and future daughter-in-law will love it!

I love, love, love this book! It's packed with tons of great information, full-length and detailed wedding ceremonies, and lots of valuable suggestions. The author adds just the right amount of personal experience so the reader is able to garner ideas and make them their own. All of the ceremony information is easily customizable. New and experienced ministers will be sure to make this their go-to book for all their wedding ceremony planning needs!

There are so many details related to planning any size wedding that having a book like this one to guide you is a definite plus. While I consider myself a very organized person, I still would have overlooked things like melting the wax off the wick of the unity candle beforehand, and having a basket available for cards at the gift table. We especially enjoyed designing our very own wedding ceremony from the wonderful selections provided. Reverend Amy has a lighthearted writing style that makes this book enjoyable to read as well as helpful. This one is a worthwhile investment for any wedding.

I'm a non-denominational minister and I bought this book because I was interested in expanding my collection of ceremonies. This book was perfect. I found ceremonies to suit many different situations and they were all very heartfelt and personal. Since I've been using them, people often ask me if the couple wrote the ceremony themselves because it sounds so much like them. The whole book was outstanding!

I bought this for ceremony wording as I am an officiant and was getting married. I took a little for each ceremony I liked and created my own. I found it useful but there was a lot in there that I figured was common sense. I would recommend it. Might be good for grooms who are completely clueless.

Thank god for this book! Planning for my wedding topped my lifetime list of most stressful events until my (recently married) friend bought this book for me. Not being the most organized person definitely deepened my prenuptial anxiety, but thanks to this book, I am relaxed and excited about the big event. Why is it so good? The book systematically lays out the important (and easily forgotten) details necessary for a memorable and smooth going wedding. I really like the worksheets that the author included (and stressed using as an integral part of the planning process). I know what I do and don't want for my wedding and am planning accordingly. While it's not for another three months, I am relaxed and confident that mine is going to be a wedding to remember!

My friend recently got engaged and I plan to give this book to her as an engagement gift - we "brides to be" need all the help we can get!

The only thing missing is perforated pages which could be removed and copied. Otherwise, it's very helpful with wedding planning for the couple to be married or other professionals involved in the ceremony.

I'm not usually very good at planning parties and things (we stay in a lot), so the idea of doing a whole wedding was a bit overwhelming. Our wedding was small (75 people), but there was still a lot that needed doing. The checklists made life much easier. We planned the food ourselves and the list of food suggestions really helped! I used the ceremony stuff too. The vows meant more to us because we put them together ourselves.
