## Customer Reviews

This is a very beautiful way to share Christmas with others. The old fashioned pictures in a high gloss finish are so bright and cheerful and very Christmasy. Everyone who received one of these cards really appreciated them.

These 24 old-fashioned Santa Claus cards come in a glossy, colorful 11 x 8-1/4" book. There are 4 cards per page. They are easy to remove, with instructions in the front of book. The book includes a history of the postcard with fascinating facts. The cards are fairly small, about 4 x 5-1/2", which is an advantage if you don't want to write a long letter. I sometimes like to send these cards in a larger envelope with a separate letter, especially if mailing overseas. Various artists are represented in this collection. I wrote down the names of my favorites and plan to look for more of their cards in the future. The back of the card identifies the artist, if known, or the original date and country of the publisher. All of this adds to the card for me, as an artist. This is Santa in every mode of transport. Sometime he's astride a horse, sometimes in a biplane. I liked every card. I highly recommend this collection.

These postcards were wonderful, better than most Christmas Cards. Great selection of old Fashion Santa Pictures and I especially loved the ones from Germany. They were very inspiring, giving me the Christmas Spirit.

At first I was a little disappointed because I didn't read the whole description about these cards and thought they were put together cards. No, they come in a paperback book and there are 4 on each page. They are beautiful though and I realized that I could easily MAKE cards with them using my scrapbooking materials! It will mean a lot more to people receiving these because of the effort put into making them!

Beautiful. Shipped extremely quickly. Beautiful glossy reproductions. They do come in a book and you must fold and tear from perforations so not as pretty for mailing. I bought them for framing and for that purpose they were perfect.

I have become obsessed with Victorian Post Card Art. I love this collection - the cards are a little larger than anticipated, which is great because I will mostly be using them for reference / inspiration material for my own sketching. Nice.

The cards themselves are very pretty until you go to cut them out, There is four cards to a page and because they were not printed "square" or aligned properly, when you cut them out they are not all the same size. I find that this is true of the all the postcard book that I have bought that have 4 cards per page. The little books that have one per page are much better.

Nice old fashioned christmas post cards. they are in a book with more than one to a page. they are separated with perforations on the cards so you have to rip them apart. but you have to be very careful how you do that because it rips the images easily. great quality images.
