To be honest, I only use the rice cooker if it involved plain rice. The book gave me different rice meals that my friend and family will love. The recipes are simple and really looks delicious. As an asian family, we love our rice and I think my mom will also appreciate this book.

I'm a big cookbook fan but never really looked too much into rice cooker meals until now. This book is really well put together and covers so many options from dinners, quick and easy recipes, to soups, seafood and meat. What surprised me was that rice cookers can be used for more than just rice and the options are endless. Looking forward to trying some of these out!

I never knew in my life, that a simple rice-cooker can come in handy, for a whole lot things can be cooked in that. And if nothing is there I have a rice-cooker to make wonderful recipes mentioned in this book.

I'm a big fan of my slow cooker and rice cooker. They're unexpectedly versatile in the kitchen, easy to use, and so convenient when you want to make a meal without a lot of time and effort. For the busy cook, this author's books are a life saver. This particular cookbook is full of great recipes that use a lot of my favorite flavors.

A great recipe book for rice cookers!
