## Customer Reviews

I \*love\* scrappy quilts! And all of the blocks & quilts featured in "I Love Nine Patches" (compiled by Karen M. Burns) can be made from scraps! It's always fun when I can use up some of my fabric stash on quilt blocks that are pretty simple to create. In fact, I was able to not only make some quilt blocks from "I Love Nine Patches", I was also able to use my scrap pieces as leaders/enders. For a quilter, there is no better resource than quilt pattern books that make working with your fabric quick, easy and a stashbuster, to boot! Also love the chain piecing instructions and then using that knowledge as you peruse the quilt instructions and you are shown exactly how to utilize chain piecing for the quilt patterns within the book. On top of the nine-patch blocks shown in this book,

there are also nine-patch quilts with their instructions. I think the "Lollipops" quilt pattern is my favorite in this "I Love Nine Patches" book. Not only combining scrappy fabrics with white but the added appliques along the border just makes me feel all quilty all over! I received this book in exchange for my honest opinion via this review. I would NOT have given it such a high rating if it wasn't worthy of such.

This is so basic, but a book with fun new ways to put them together. Some do not even look like nine patches. Diagrams and directions are easy to follow. Original ideas on basic patterns means even newer quilters can do it, but experienced ones will still enjoy it.

Wow! SO diverse and pretty! I generally consider the nine patch a beginner block and not one of the most exciting but this collection of 16 quilts designed by 15 different designers really shows the diversity of the block. One of my favorite quilts is called "Tilt" and the nine patch is created from blocks cut and sewn on an angle in an easy way. Another quilt that is really outstanding is called "Gradations" and its overall effect is as the name states a gradation of nine patches from small to large that is really beautiful.
