Customer Reviews

For those looking to eat more fish and less meat for health reasons, such as the need to reduce saturated fats in the diet, this cookbook offers some wonderful recipes prepared in a variety of ways--using the grill, broiler, oven, soup pot, and frying pan. The recipes use a wide variety of fish and shellfish, including suggested alternatives for some of the more esoteric choices (monkfish, pompano, skate) not always available away from the coast. Recipes range from "simple suppers" to fancier, special occasion preparations, and each recipe is accompanied by an attractive full-page photo of a beautiful presentation. Cooks looking for a complex blend of flavors to set off the fish (especially in sauces) will find that many of these recipes depend instead on only one or two ingredients for their primary flavors--a red snapper recipe is flavored with rosemary and pernod, cod flavored with vegetables and basil, and skate with brown butter and lemon juice. Those who enjoy fruit with their fish may enjoy the halibut with oranges and molasses, salmon with fennel and apple salsa, and salmon with a sauce of mango juice. Many of the recipes show elaborate presentations--oven-poached whole salmon covered with 1/16" slices of English cucumbers, and orange roughy with 1/8" zucchini slices, easy to do if you have a food processor but a bit fussy to assemble. The halibut fillet en papillote can be prepared ahead, so the "fuss" is done before the guests arrive. Those who plan to cook fish on the grill will need to plan for split-second timing of the grilling and the presentation, and to be sure to have the correct implements for turning the fish to avoid shredding it on the hot grill, a reason many people avoid grilling fish for guests.
