Leather Braiding (reprint)

Synopsis

Leather Braiding has stood for more than forty years as the definitive book in its field. Grant's clearly written guide to the art of leather braiding contains detailed illustrations, step-by-step instructions, and a wealth of incidental, fascinating information. It makes accessible, to even the novice, serviceable and recreational uses of leather, from the simple but clever braided button to the elaborate results of thong applique. A basic book.

Book Information

Paperback: 173 pages

Publisher: Cornell Maritime Press; Reprint edition (1997)

Language: English

ISBN-10: 087033039X

ISBN-13: 978-0870330391

Product Dimensions: 6.1 x 0.6 x 8.9 inches

Shipping Weight: 1.2 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars [See all reviews](#) (103 customer reviews)

Best Sellers Rank: #291,317 in Books (See Top 100 in Books) #29 in [Books > Crafts, Hobbies & Home > Crafts & Hobbies > Needlecrafts & Textile Crafts > Leathercrafts](#) #116 in [Books > Crafts, Hobbies & Home > Crafts & Hobbies > Needlecrafts & Textile Crafts > Weaving](#)

Customer Reviews

This is pretty much as good as leather braiding instruction books get for people who want to make authentic, impressive, usable things, right now. It describes and illustrates how to braid a range of items, plainly and clearly. The content is wider than it is deep (Grant later produced an encyclopedia that is exhaustive), but the items chosen are core items in the craft: belts, straps, handles, grips, decorative things, more. Most items shown in the book you might see anyplace today, not common or rare, but probably admired. At least one item is from Conquistador days, and is now seldom seen anyplace at all: you might have to go to a museum to see an original. The braid itself is simple and effective enough that it's a puzzle how it became rare. In this way, for tidbits of this sort, it is a neat book. The illustrations are usual quality for 1940's craft articles, which is how the content was first published. This can surprise a modern eye, one used to the present efforts to make books buyer-attractive. But this too is authentic. Writing and content are fine, practical and direct. However, there is no hint of "tricking the process," as is sometimes seen now in instructions on how to do things. Mr. Grant goes straight to the method that a cowboy or outdoorsman, or the Lady of a

working farm or ranch, might use to produce things better than, more beautiful than, or more suitable for use than what they could buy. There is a low tool count, and a short materials list. Plain instructions for making or improvising tools unique to braiding and making leather lace are given. There is no cure, of course, for the acute shortage of cows and their hides seen now in the typical city, as compared to the mid-19th-century Texas Mr. Grant grew up in.
