# Canine Nutrigenomics: The New Science Of Feeding Your Dog For Optimum Health

## Synopsis

Vibrant health begins in the cells. Learn how to transform your dog's cellular health with the power of nutrigenomics in this ground-breaking new book. Nutrigenomics (a combination of the words nutrition and genome) is the study of how the foods we and our pets eat speak to our cells to regulate gene expression, which in turn plays a huge role in determining whether a person or animal will live a life of vibrant health, or one plagued by illness. Scientists now know that while we can't change the genes we are born with, we can change how those genes behave, which is exactly what authors W. Jean Dodds, DVM and Diana Laverdure-Dunetz, MS show us how to do in, *Canine Nutrigenomics: The New Science of Feeding Your Dog for Optimum Health* from Dogwise Publishing.

## Book Information

Paperback: 323 pages

Publisher: Direct Book Service; 1st edition (January 13, 2015)

Language: English

ISBN-10: 1617811548

ISBN-13: 978-1617811548

Product Dimensions: 6.9 x 0.8 x 10.1 inches

Shipping Weight: 1.1 pounds (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars [See all reviews](#) (102 customer reviews)

## Customer Reviews

As the owner of Hooper, one of many of the Successes Jean outlines in the book, I am so glad that this book was written. Over many years, I have been fortunate to interact with Dr Dodds or as my wife and I call her Aunt Jean. And had I not sent an email to her on 12/30/2011 desperate for any glimmer of hope for our little guy (which was responded to the same day by Jean), I know we would have lost him in a matter of weeks if not days. We instituted the liver cleansing diet and within a day my dog went from barely eating to ravenous for his new diet. I have been home cooking for him with the same exact recipe for almost 4 and a half years and other than the normal issues expected with a 16 year old dachshund, Hooper is doing great! Given what we learned while dealing with all of Hooper's issues, I knew a lot about the diet, supplements, and recommendations referenced in the

book. But still learned so much more that can be applied to Hooper and our other dogs. I don't want to rehash all of Hooper's issues as Jean does that well enough, but to properly give due credence to the over night change in Hooper's health and how the diet saved his life I will share this. Hooper visited the vet over 25 times in 2011 and only 2 times in the following 2 years after Jean responded to my email/prayer. Those two time for checkups unrelated to his prior stomach issues. I have had the pleasure of getting to know Jean as well as one can being 3000 miles away. And she has helped our dogs countless times always in a caring and decisive manner and has amazingly always been right no matter what the problem or issue without ever meeting my dogs...truly amazing. All this being said, as someone that lived a Jean Dodd's miracle, my message would be to take a PROACTIVE approach with your dog's diet.
