Beginner's Guide To Silk Ribbon Embroidery (Search Press Classics)

Synopsis

Learn how to create beautiful flowers using silk ribbon embroidery techniques, including foxgloves, roses, hydrangeas, delphiniums, primroses, geraniums, irises, poppies and much more. Only a few stitches are needed to create exquisite designs. All the techniques are explained using step by step photography and instructions, and there are clear diagrams with every project. There are also full instructions on how to paint and stencil fabric backgrounds. Suitable for beginners and experienced embroiderers. This timeless best-seller has been redesigned to appeal to the modern embroiderer.

Customer Reviews

Excellent book for learning silk ribbon embroidery. I know how to embroider with thread, this is a lovely book for embarking on a new art experience. The photos are lovely, and the directions are clear!

Be careful when ordering this book that you do not have *The Handbook of Silk Ribbon Embroidery* by Ann Cox....from what I can see they are alike.

This is a beautifully illustrated book for silk ribbon embroidery. The directions are very straight forward and the author has included several projects to enhance your learning.

I bought a number of silk ribbon embroidery books, and while some gave more ideas for objects (birds, butterflies, bugs, veggies, etc), none have the artistry that Ms. Cox has. She has a good eye

for both form and color, and she gives good instructions, complete with color photographs to help you follow along. If you have the money, go ahead and buy those little 'encyclopedia' and project books - but if you can only pick one or two, get them with Ann Cox's name on them. You won't regret it.

Nice presentations! I am not a very experienced in embroidery so I do like the illustrations and the directions are easy to follow so I like the book for it is an easy introduction it may not be for the more experienced person and the title does state "Beginners Guide.....", I am happy with my purchase!

She has the best instruction for how to ribbon embroider.

Many thanks for your prompt service! This is a lovely book and I recommend it for those interested in silk ribbon embroidery.

The book is a great beginners guide to silk embroidery. There's a lot of great information. Oddly enough my copy from arrived with a VERY strong smoke odor. I think this book has been stored next to a campfire since it was printed.
