## Customer Reviews

I received this as an engagement gift, and thought, "Oh, I'll flip through it, but ultimately I'll return it." I have loads of cookbooks, and more often than not, I just pull recipes from the internet. However, this book sucked me in. I read it like a novel, cover to cover. The recipes are lovely, and the writing (while a little hokey) is very sweet. I'd consider this a wonderful gift for a younger, more doe-eyed bride perhaps, but even this old "been around the block" girl enjoyed it.

I love cookbooks and I love to share them. I purchased this as a shower gift with baking pans. What I like about it - is the fact that all recipes are downsized for two and it have all kinds of great romantic ideas for dinner in.

This is a great cookbook. I was disappointed when no one purchased it on our wedding registry, but once I had the registry discount and some gift cards, it was the first item put into my cart. The

recipes are great, and they're generally not too complicated. They all have a modern feel to them, lots of health-conscious options, with some sweet foods for special occasions. The first part of the cookbook is dedicated to helping you find the right ingredients, in farmers markets, butcher shops, etc.

I have to admit this is not the first cookbook I have looked at, but as a single male it was the first one I ever purchased for myself. It was incredibly informative and a welcome breath of fresh air. The recipes are unique and simple to follow, even for an amateur such as myself. This book is perfect for couples, but also works well for singles. I cannot recommend this book highly enough!

I look at cookbooks almost everyday as a manager and pastry instructor at a bakewares store. This is a perfect gift for the special couple. It is well written and full of the most beautiful(both in content and variety)recipes.Though I am not married, I will take this book home and cook my heart out!

A beautiful cookbook that makes a great gift for newlyweds as part of a housewarming, bridal shower, or wedding gift. I first saw this in store at Anthropologie and then was going to order it online...so glad I immediately thought of ordering from as you easily save \$15 and get free shipping (prime).I took a quick look through the recipes and they look really nice. If you've seen it elsewhere, just do yourself a favor and order from .

I don't have any first-hand experiences with the recipes in this book because I purchased this as a wedding gift for a friend who loves to cook. Her feedback was all positive. Quick easy gift to give when you don't know where their registered and need a last minute gift--available at most book stores.

This cookbook is a great gift for newlyweds! Especially for couples who like to cook together. Definitely a very appropriate gift for a bridal shower and/or as a wedding gift. Fun in the preparation! Delicious in the eating!
