Ribbon Artistry

Synopsis

The fabric and craft world is swimming in miles and miles of beautiful ribbons, with limitless choices of color, style, width, and purpose. Ribbon Artistry offers the creative artist fresh new ideas for using these ribbons to their fullest potential. The book begins with a large chapter on ribbon-crafting techniques and basics. Each technique is shown step-by-step, giving the beginner a valuable learning tool and the experienced ribbon crafter a quick reference guide. Techniques include silk ribbon embroidery, braiding, pleating, and folding ribbons, as well as basics for making fabulous ribbon flowers. The book also offers over fifteen unique and inviting projects for incorporating ribbonwork into various creative endeavors, including giftmaking, clothing, accessories and home décor items. Each stunning project is an original design created specifically for this book by a professional ribbon artist. The experience and creative flair of each artist sets her work apart from the others so that no two projects have the same style. Each project is taught step-by-step, with full-color photos that stimulate the imagination and ensure success. Projects include clothing embellishments, flower corsages, pillows, lampshades, bedding and more. Decorating with ribbons is one of the easiest ways to transform an ordinary item into a one-of-a-kind creation. With Ribbon Artistry both beginners and experienced ribbon crafters will find new ideas to expand their skills.

Customer Reviews

This book is useful to both the beginner and experienced "ribbon" person. I have learned a lot from this book and now use some of the embellishments on quilts, clothes and accessories. Hope this is helpful. Strongly recommend.

This is one of my favorite craft books. When looking for a new idea I always find myself skimming through this book for inspiration. The majority of the designs are flowers but each one is so different and beautiful no one would guess they were made from ribbon! The ideas in this book cover a wide variety of styles from formal to casual. Each project is laid out in easy to understand directions and diagrams with easy to see close ups of the ribbon as each project is made. It also gives you lots of ideas and ways to use each technique. The techniques shown in this book are: Weaving (There are 5 different ones shown) Braiding (There are also 5 different braids shown, I used one while making a mum for homecoming.) Pleating (5 of these as well. There are some amazing pleats shown here not just plain! You could make superb quality trims!) Gathering and Smocking (4 of these shown but with so many different variations!) Ribbon Flowers (I didn't count these techniques there are so many!) but a list of the flowers are: forget-me-nots, camellia, buttercups, apple blossoms, wild roses, zinnia, chrysanthemum, aster, dahlia, dianthus, cone flower, daisy, black-eyed susan, coreopsis, cosmos, lily, several different roses, several different leaves, 19 different embroidery stitches. It also gives several different ideas for flower centers. Then there are 18 detailed projects to put what you learned to use, they include: boudoir ensemble, braided ribbon clothing, detail woven ribbon and lattice trimmed garments, straw handbag and berets, spectacular straw hats, ribbon hair accessories, flowers sampler, ribbon flower shadow box, ribbon flower wreath, woven ribbon photo mat, ribbon embroidery on wire mesh, grape cluster wine bag and napkin ring, table runner, classic silk pillow, romantic embroidered pillow, Christmas stocking. As you can see there is LOTS of information in this book and can be applied in any project you make! Highly recommended, I would buy again and again!

This was a book needed for a course. This is a well done book, beautifully illustrated and if you are inclined to learn the art of ribbon embroidery, one book to add to your library.
