Love love love this book! Beautiful photography with inspirational ideas that are more than just hair bows! There are ideas for beautiful packaging, weddings and several fabric flowers. The directions are easy to understand as well. If you love working with ribbon you will love this book! Highly recommended!!

This book is beautiful and full of incredible ribbon inspiration! Deanna is brilliant! The photography is beautiful and Deanna is very thorough in her explanations on how to make her gorgeous ribbon creations! This book makes me excited to get some ribbon and start creating these lovely projects!

If you want to learn ribbon crafting, this is the book for you. The first part of the book is dedicated to

explain each type of ribbon and what it is best used for. Such great information for any ribbon craft. In addition to each project having a great photo or two, there is also a tutorial on making the bow and materials list for each bow. I got the book primarily to make hair bows, but I love the section on using bows for decorating and wrapping gifts. This book has so many ideas and great inspiration it is totally worth the purchase!

I really enjoyed this book, primarily because the instructional information is so clear and easy-to-follow. I consider myself a little "ribbon and bow" challenged, and was easily able to follow the directions to make some very credible looking bows! I no longer have any little girls in my household, but everyone wraps packages and can use tips on how to make a prettier presentation of a gift. Thanks for a great book!

I have already used one of the projects (the double pinwheel bow) for amazing bows on my Christmas packages. The book is loaded with other bows and flowers I will surely use on hair clips, shoe clips, and on garments that I sew. Some of the projects can be used as stand-alone gifts, like the headbands and chain bracelet. The book is beautiful to look at, and instructions are very clear and easy to follow. I'll be keeping it close at hand!

After getting this book, I sat down on the floor with my ribbon stash and was up until 2 in the morning making one bow after another! The instructions and drawings are very clear and make it easy to duplicate the bows in the book. I can't believe I'm making boutique quality hair accessories myself. Thanks for a great book!

This is a beautiful book. I was pleasantly surprised at the variety of bows I could make. The illustrations and instructions were easy to follow and understand. I'm not sure what the person who gave this book one star was looking for but they don't seem to like anything else they get on either so that review is mute.

I love the book! I've been making bows for a long time and I still learned a ton. This is great for beginners or experienced bow makers. I can't wait to try some of the gift wrap ideas!
