Prodded Hooking For A Three-Dimensional Effect

Synopsis

Uncover the history and background of traditional proddy Offers techniques for different prodding methods and describes other forms of three-dimensional rug hooking Step-by-step instructions and templates to create realistic-shaped proddy flower petals plus includes a special table-runner project, full-size pattern insert, and instructional DVD Three-dimensional rug hooking is gaining momentum in the fiber arts field as a way of accessorizing traditional work. Gene Shepherd gives a comprehensive look at the origin of prodded rugs and gives step-by-step instructions to achieve the look of realistic flowers and leaves. Beginning with the background of traditional prodded hooking and methods to do it, he covers realistic-shaped proddy flowers, molded hooking, decorative knots, and backgrounds that appear three-dimensional. Learn how to use pancake-dyed wools and alternate loop (beaded) techniques. Includes an instructional DVD.

Customer Reviews

An informative, well illustrated and beautifully presented book with very clear instructions. The DVD included was an added bonus

Have started a very special rug for my new granddaughter and wanted some "special effects". Saw this advertised and it's as if it was written just for me. Thanks to Gene and RHM for another great read.

Gene Shepherd has an eye for beautiful color. Love it, love it! He's given proddy rugs and pictures a

new and better look. The instructions were clear and concise plus the technique pictures left you with no questions on how it's done.

I want to make some projects to take to a nearby flea market that is located in the NC Mountains. I thought some 3D effect would add a nice touch. I have to say I'm not the easiest learner from reading instructions, I'm more of a hands on by watching someone. Well this book does both, you read the step and look at the picture and BAM there is what you want yours to look like. Thanks Gene for making this new adventure a little easier. Great book with lots of nice pictures of his work and others.

Excellent book, perfect transaction, fastest shipping, Great seller. This book teaches you everything you need to know about the "proddy method"...Gene Sheperd is the greatest. All of his books and DVD's are great teaching methods, easy to understand. Thanks once again for a great book, great prices....

I bought this as a gift for a friend, she seems to really like it. I may borrow it from her and give this style of rug hooking a try. The illustrations are very good and the explanations are clearly written.

I haven't watched the DVD, but Gene Shephard's You Tube instruction is great--that's why I ordered the book. Within 5 minutes I was able to use skills outlined in the book and incorporate them into patterns I'm working on.

This is the only book you will ever need to do PRODDY, it explains everything and the disc is so Informative SHOWS AND EXPLAINS it all excellent book, great price for all this information and great service getting it shipped, Thanks best place i ever ordered books got them in a few days no waiting and no fuss.
