Entertain Like A Gentleman

Synopsis

Memorable meals made easy. Knowing how to entertain for that special date or for a large crowd is the epitome of being a gentleman. There is no stronger way to impress someone than by showcasing your culinary skills. Bachelor Chef and culinary instructor David Harap has created a series of menus that any man can make his own. This book helps men create unforgettable meals for their guests without stress or needing years of cooking school. In addition to many exciting recipes for every occasion, that are tons of tips and secrets on how to become the ultimate host.

Customer Reviews

Well I'm not exactly a gentleman but I can certainly appreciate this book! I loved flipping through the pages of *Entertain like a Gentleman* and planning all the parties I'd like to have, just so I can make some of these amazing recipes! He begins the book with the basics of what you need to know both for the book and for cooking in general. Then there are sections for every type of entertaining you can imagine from a Super Bowl Party to a Breakfast in Bed. I think my husband needs to take a look at this book! As a mom I really liked the *Cooking With Kiddos* sections because most books don't include these unless it's a cookbook just for kids. I love cooking with my kids and sometimes all you need is a creative name like *Dinosaur Eggs* to get your kids to eat their veggies! We also tried the *Violet's Chocolate Pudding* recipe and I have to say, it was the best pudding I've ever had! No more store-bought for us! And the kids loved making it! Quality time AND

quality food! One of the things I really liked about this book is that it has a shopping list on its own page so you could easily copy it and bring with you. It also gives you the equipment you'll need. There's nothing worse than getting halfway through a recipe before you realize you don't have something you need! It's so nice when it's provided for you instead of having to make your own lists. There is room for "Culinary Notes" at the end of each section which I also appreciated. Sometimes I write right on the page of a recipe but this is much better! I write things like "Justin liked it" or "cook 5 minutes less" etc. Sometimes things work out a little differently than planned and you might not remember that the next time. This way you won't have to! I do wish that the book had pictures of the finished dishes. I'm a visual person and often when flipping through cookbooks, I stop at the ones whose pictures make my mouth water! Other than that, *Entertain Like a Gentleman* is the perfect book and would be great for any Gentleman to have at their fingertips!

Another fab feature of the book is the shopping lists which can be torn out and taken with you so you don't forget a single item. *Entertain Like a Gentleman* includes some fab tips like asking guests if they have any dietary restrictions. This used to be a common oversight until a lot of my guests started foregoing my desserts because they were watching their sugar intake so I started including sugar free desserts at our parties and our guests took notice. Also, taking stock of pantry items you have on hand. I'd hate to find out I was out of nutmeg just as I was whipping up a batch of pumpkin muffins found on page 166.

I bought this for my friend after I learned that he was making the same meal for his girlfriend every night! I was thinking how boring it would be to have the same meals everyday. I bought him this book and two weeks later his girlfriend thanked me for the gift. This book comes with over 150 pages of recipes and information fit for any man. Sometimes I'm forgetful when I go grocery shopping but this book has tearable pages so I do not forget a thing.

I have been waiting to read something like this for a while now. The ideas that this book presents warms my heart and makes me want to be entertained by a gentleman! It's certainly worth the price and is something you can keep prized forever. I would not trade this book for the world. Anyone who wants to charm their significant other should order this book right away, as it will definitely help you in the long run. David Herap also has some other great books available if you have not already read them.

The best thing about this cookbook for men is that each recipe includes everything the man could possibly need to successfully complete the dish. For example, while a recipe may call for a cup of this or a tablespoon of that, it also says a large pot or plastic wrap will be needed. While there are a lot of great male cooks out there, professional chefs, etc., the average guy doesn't always know a lot about cooking. I'm blown away by the categories like Oktoberfest, Double Date Night, Romantic Dinner. The olive oil poached halibut with mint lemon pesto is to die for, truly. Entertaining 101 covers a whole host of tips such as stress free entertaining and basic tools in the kitchen. There's also a shopping list, which is invaluable to have for anyone. Overall, this is a wonderful cookbook for the gentleman, but it's great for anyone.

This book features easy to make recipes for every occasion for gentleman but can be easily used by ladies to not only impress but to enjoy without stress. The format of the cookbook is very easy to use with do ahead tips, shopping list, equipment necessary and clear instructions so that it is easy to follow. Some of the commentary from a guy's perspective is pretty funny, like preparing for a romantic dinner and the hints for a Super Bowl party very helpful, like "Don't put all the food out at the same time, you have to stagger it!" Wonderful cookbook to use yourself or give as a gift, even for non-Texans.

I was so excited to receive this book and give it to my husband. He is a wonderful cook but sometimes just needs a little better idea on what to make. This book has made a huge difference. He loves to make more unique foods now and I really enjoy them. With his cooking now he has become more romantic which sure is helping us.

I bought this book for my boyfriend's birthday because he has been dying to get into cooking more. He made a few of the dishes in the past couple of weeks for me and a few friends. Everyone loved it. The recipes are great and none of them are extremely hard to create. Now he is planning a dinner party so he can show off to all the people we know. I am looking forward to trying more. Now we can throw on our aprons and create magic together. Everyone should get a copy of this.
