Who doesn't love BBQ? You need to check out this book as I absolutely fell in love with it at the library and knew I had to have a copy. It has everything in it. I'm thinking the SW Creamy Mac & Cheese sounds fabulous but lets keep going. We have beverages (Blackberry Shine, Watermelon Punch, Cherry Mojito, Sweet Stinger and I could go on as there are a lot more), desserts (old fashioned banana pudding, rum cake, fruit kabobs, cheesecake minis, etc.) and now let's talk sides (salsas, dips, pasta salad, sweet potato fries, baby red stuffers, etc.). Are you getting hungry yet? Its time for the main dish.....let's talk chicken: chicken sandwiches, chicken tacos, chicken seasonings,

BBQ chicken, chicken wings, chicken wraps, chicken chili - move over chicken, it's time for the beef and pork: pork nachos, pulled pork, smoked pork, pork loin, pork chops, beef fajitas, burgers, meatballs, steak. That's just some of the recipes that's inside this book. The recipes are not hard and the ingredients are not difficult to find - things that are found in most stores. Lots of pictures too, which I liked. I know I got you and I haven't even mentioned all the recipes for BBQ, buffalo, bacon, fish, pizza, marinades and sauces. Whatcha waiting for? Buy the book.

I thought Dave's new book was fantastic! I actually bought this book at a Famous Dave's where he happened to be signing! Not only is he a very nice man, but he took the time to sit with me and give me advice on recipes and BBQ do's and don'ts. He told me about several products he uses to make his rubs and sauces that may be brand name but, they readily available anywhere and none where his line of products. It's a fun book if you are planning an party! I know I will be using it a lot!

As an old time BBQ cooker and a retired competitive cook, I enjoy fine cookbooks and have a few hundred. Trying to find one book that I would give a new comer to BBQing or to a family that wants to do a little more than just turn out smoked meat, this is the book. It is as beautiful and it is informative. This book is packed with information that most books do not have. It gives product names and talks about "stacking flavors" that is so important in good food. I always called it "layering flavors" but I like Dave's description better. You need good clean taste of rich flavors and they should not be blended all together--you stack them and that creates the taste sensation. Everyone has their favorite meats to cook and serve and be famous for presenting something special. My reputation is with Briskets and Turkeys. But once it is smoke roasted---where does the party began? Dave gives you lots of ideas and suggestions and new ways to serve your own famous BBQ food. The vast majority of outdoor BBQ cooking families will find this to be one of the very best books they can own. I really thought there was little more to say about BBQ in a book, but Dave proved me wrong. I have two outdoor kitchens and several smokers and grills. I cook all year and I live in Wyoming at 7,250 feet elevation. Dave brings food and fun together in the best BBQ book I now own--and I thought I had them all.

I am not an expert griller and I found fantastic tips on how to BBQ. I also love the party tips, Famous Dave shares easy party tips on how to make your bbq party look like you hired a decorator. Fast, easy, no brainer.

I have tons of bbq books and I have other party type books but this one is my favorite. Great for super Bowl party's, 4th of July party's, memorial and Labor day cook outs. Update A year later and I am still using this book and still love it. I am a simpleton and don't like too many ingredients and recipes that take too long or are complicated and I don't feel this book is either of that. Just a great book.

This wasn't what I expected because it is really intended for bigger crowds rather than a small BBQ. But, it had some very good recipes, easy to follow & a very high quality product. I exchanged it for a different Famous Dave that fit my need.

The problem with Cookbooks like this is they don't tell you everything and leave a lot for you to guess at. Example: Recipe calls for a "20 oz. Bottle of Famous Dave's BBQ Sauce", that is no help at all. There are about a dozen different "Dave's" sauces to pick from, and none are called "Famous Dave's BBQ Sauce. Things like that that will drive ya crazy.

First I must admit, I love Famous Dave's. I love the one in Colorado Springs Off of North Academy. I have also visited the one in Arizona and Las Vegas. I live in California so it is quite a drive. When I ordered this book, I wasn't sure what to expect. Mostly, all I saw in the sneak peak was the party planning. However, as I opened the pages and flipped through one mouth watering recipe after the other I was totally hungry. Dave was very good at including recipes for any special concoctions he used everything was completely explained he talked about ingredients, his special favorite brands and where to get them. I always wondered why other barbeque places just did not have the flavors I was looking for but now I know the secret. Get this book, you will love it. Oh and if you are a Famous Dave restaurant fan like me don't expect to find the Famous Dave signature dishes here in this book. The man has to keep some things special.
