## Customer Reviews

This book has great seafood recipes with appetizing pictures. Can't wait to try my way through this book.

This is a very good book to have if you are interested in making restaurant-quality seafood at home. In the past the best I could do would be to fry catfish, roast salmon, or stick a piece of fish to my grill. With this cookbook I am roasting whole pompano, pan-searing fish and finishing in the oven, and even grilling and broiling oysters. Tomorrow I will take the book to the fish market, pick out the freshest fish, and then head to the grocery store for the rest of the ingredients. Thanks!

Good recipies

I have the joy of living in Fort Worth where Waters is located. Jon Bonnell's talent takes wonderful Texas food from delicious to a glorious experience; and with his cookbooks, we can do so at home.

I have only made one recipe from this book so far and that was the crab dip. It was an excellent dish.

Recipes excellent. Photography helpful. Content readable and appropriately sized.

Great, just as described.

Excellent
